SIBA SANKAR KABI

DESIGN LEADER | PRODUCT EXPERIENCE & DESIGN | ENTERPRISE SAAS

Bengaluru, India | sankar1kabi@gmail.com
Portfolio: https://www.sankarkabi.co.in/

PROFESSIONAL SUMMARY

Product experience and design leader with 13+ years in UX, including five-plus years designing enterprise products at Oracle. Currently heads Capgemini's Bengaluru Design & CX Studio, built and scaled to 24 designers (60+ UX hires in FY 2025–26, 90%+ retention). Builds distributed design teams, sets design standards and governance, and partners with product and engineering from discovery to delivery. Brings AI into the design practice day to day, with AI-assisted workflows using Claude and Model Context Protocol (MCP), and has led conversational AI design at government scale.

CORE SKILLS

Design Leadership & Team Building | Product Experience Strategy | Enterprise SaaS UX | Design Systems & Governance | AI-Assisted Design Workflows (Claude, MCP) | Conversational AI UX | User Research | Interaction Design | Accessibility (WCAG) | Usability Testing | Hiring & Mentoring | Cross-functional Partnership | Agile & Lean UX

PROFESSIONAL EXPERIENCE

CAPGEMINI INDIA LTD — Bengaluru Design & CX Studio

Senior Manager – UX Design Lead & Studio Head | Oct 2022 – Present

- Lead design delivery and studio operations for a 24-person design team, including direct project leadership for six UX designers. Support team development through design reviews, mentoring and knowledge-sharing sessions.
- Introduced a practical set of AI-assisted workflows across the studio using Claude, ChatGPT, Perplexity, Grok, NotebookLM, image-generation tools and Gamma. Used these tools for ideation, research support, asset exploration and presentation development; reported deck turnaround time reduced by 50%.
- Partner with clients, product owners, business stakeholders and engineering teams to shape UX direction and deliver work across the product lifecycle.
- Lead UX contributions to 15+ RFPs, including scope definition, effort estimation, resource planning and pitch presentations.
- Lead discovery and proof-of-concept work for clients including Victoria’s Secret, Subway, Siemens, Daimler Trucks, Tetra Pak and Goodyear. Activities include stakeholder and user discussions, journey mapping and prototyping.
- Create and review UX deliverables such as personas, user journeys, affinity maps, wireframes, prototypes and heuristic evaluations; work with delivery teams to maintain design quality through implementation and testing.
- Received the Capgemini GEM Award for delivery and contribution.

SELECTED PROJECTS

Capgemini Bengaluru Design & CX Studio | Studio Leadership

- Built and scaled the studio to 24 designers. Set design standards, supported Lean UX and Agile ways of working, and introduced team learning on Figma Make, Claude AI and Model Context Protocol (MCP).
- Reported outcomes: 13% increase in annual contract value, 18–20% reduction in design debt, 40% faster ideation, 90%+ team retention and 15% improvement in studio utilisation. Conducted 60+ UX hires in FY 2025–26.

TAMM Conversational AI Design System | Design System Lead

- Established a shared design language, reusable component library and contribution process for a government-facing conversational AI platform, supporting consistency across digital touchpoints.
- Reported outcomes: 35% reduction in manual B2B support tickets; the work also helped establish a conversational AI design offering that supported 3+ AI-focused projects.

Victoria’s Secret Fashion & Beauty e-Commerce | UX/UI Designer & Design System Lead

- Developed an Atomic Design-based system for mobile and web, including reusable components, style guidance and UI kits. Conducted accessibility reviews and supported engineering handoff.
- Reported outcomes: 32% reduction in front-end development time and improved visual consistency across global markets.

Baptist Healthcare Platform Redesign | UX Lead – Product Strategy & Design

- Led UX work across PineApp, Phressia Dashboard, Shopify Pharmacy and chatbot experiences. Facilitated design sprints and stakeholder workshops, and coordinated with cross-functional teams.
- Used Figma Make and Claude to explore component patterns and support design-system ideation. Worked across web, iOS and Android touchpoints.
- Reported outcomes: 18% increase in patient bookings, reduced appointment drop-off and a 50% increase in usability-testing touchpoints.

Goodyear B2C & B2B Website Redesign, APAC | UX Strategist & Design Lead

- Defined UX approach and delivery scope for APAC markets, including process flows, personas, user journeys, information architecture and business-metric mapping.

- Helped shape a design roadmap aligned with regional priorities and KPIs. Reported outcome: 50% increase in usability-testing touchpoints.

ORACLE

Lead UX Designer | Oct 2018 – Nov 2022

- Designed end-to-end experiences for the Oracle for Startups portal (StartupBeat), including user flows, sitemaps, wireframes and prototypes for web, iOS and Android.
- Worked on GTM, Credit to Scale, Mentorship, Migration, Virtual Library and User Management modules, collaborating with product managers, developers, stakeholders and customers during usability evaluation.

UX Designer – Oracle for Startup Accelerator | May 2017 – Oct 2018

- Designed prototypes, icons and navigation for GTM, Alumni, Cloud Usage and Mentor Pool products, including CRM and cloud-based dashboards.
- Supported requirements gathering, wireframing, prototyping and implementation using HTML5 and CSS3; also produced digital and print marketing assets.

GAMEMELA — UI/UX Designer | Apr 2016 – May 2017

- Designed an online gaming platform for purchasing and redeeming games. Conducted user research and usability testing, and iterated the experience across Android, web and desktop.

CHERISH MATERNITY PVT. LTD. — Visual Designer | Apr 2012 – Mar 2016

- Designed and maintained an e-commerce portal and delivered visual-design work including UI kits, packaging, banners and client materials for Mahindra, HCL and ITC.

TOOLS & METHODS

Design & Prototyping: Figma, Figma Make, Adobe XD, Sketch, Axure, Balsamiq, InVision, Photoshop, Illustrator, After Effects, InDesign, Procreate, Canva

Front-End: HTML5, CSS3/SCSS, JavaScript, Bootstrap, Tailwind CSS, Skeleton

Collaboration: Miro, FigJam, Jira, Confluence, Microsoft Teams

AI & Emerging Tools: Claude, ChatGPT, Perplexity, Grok, NotebookLM, Model Context Protocol (MCP), Gamma

Methods: Design Thinking, Double Diamond, Agile/Scrum, Lean UX, Design Sprints, User Interviews, Surveys, Usability Testing, Heuristic Evaluation, Affinity Mapping

EDUCATION & CERTIFICATIONS

Bachelor of Science | Sambalpur University | 2000–2003

Multimedia Design | Animaster Multimedia Institute | 2006–2008

HFI Certified UX Analyst (CXA) | Google UX Foundation Certificate (2020–2021) | Google AI Professional Certificate | Claude Code in Action (Anthropic) | Certified Agile Scrum Master (2021) | Introduction to ChatGPT and Generative AI
